01 · WHO WE ARE

A clearer route to UK study

Jisr Education is a UK company that gives students and families in Saudi Arabia free advice on applying to UK universities.

The UK system can be hard to follow from a distance: foundation years, English tests, deadlines, and whether a degree will be recognised at home. We explain it in Arabic or English, at your pace, and parents are welcome in every conversation.

OUR APPROACH	WHAT MATTERS
Clear explanations, careful research, and guidance shaped around each student's grades and goals.	Honest information, realistic expectations, and decisions made with the family's priorities in mind.

i We are not an appointed agent of any UK university. Before you choose an application route, we explain clearly how it works.

02 · HOW WE HELP

Support at each decision

Every student is different, so we start with their grades, interests and plans, and work from there.

01

Choosing a university and course

We build a shortlist that fits the student, with the reasons for each option, so the family can compare them clearly.

02

Entry requirements

Grades, foundation years and English tests such as IELTS or PTE. We read the published requirements and check unclear points with the university.

03

Applications

Documents, deadlines and each step of the application. We help plan the personal statement and give feedback on drafts. The words stay the student's own.

04

Saudi recognition

We check the published Saudi requirements for a planned course, so families know how the degree may be treated at home before they commit.

OUR COMMITMENT

Clear guidance. Careful research. Realistic expectations.
